

My husband and I purchased a lot in Lockwood Folly two years ago. Last year when the amenity center proposal didn't pass, we put the lot on the market, having no wish to be part of a declining community. As you can guess, we have had no luck selling the lot. In fact, nothing much has sold in Lockwood Folly for many years.

Should this new proposal pass, we have decided to keep the lot and start building a home on the property next year. We are confident that the majority of the objections raised last year have been addressed and are hopeful that this time around, the amenity center proposal will pass. Our dues are much less than the other communities in the area and for a low cost, we have this wonderful opportunity to upgrade our amenities and put a halt to our declining values. A "YES" vote will help Lockwood Folly again become one of the premier communities in Brunswick County.
